

Contact Registration

Dear visitor, dear patient,

due to the current pandemic situation, we are obligated to collect the personal data of ALL visitors and patients and retain the data sheets for a legal period of four weeks.

In order to register, please complete the Contact Form and hand it to the receptionist/Security personnel. If you need to find out on which ward the person to be visited is admitted to, the reception personnel will gladly assist you. The completed Contact Form will not be picked up by you after you finished your visit or examination, you will be required to complete another one each time you will visit again!

Please follow the current hygiene guidelines (hand disinfection, mouth-nose-covering, social distance of 1,5m) and bring your own facial mask!

If you notice to have symptoms typical for a cold/possibly a Corona infection – please DO NOT VISIT! We are asking you to understand that person(s) with a confirmed or suspected Corona infection are prohibited from visiting patients!

You confirm with your signature that you currently do not suffer from any cold symptoms, and that you did not return within the last 14 days from any of the regions assessed by CDC/ German RKI to be COVID-19 risk areas.
